

PCS MicroFiber Destainer

Description:

Stabilized, low concentration sodium hypochlorite destainer designed to remove imbedded stains and oxidize organic soils from microfiber cloths and floor mops. Contains less than 1% sodium hypochlorite, natural carbonates and sodium chloride.

Directions for use.

Add to wash cycle along with PCS Process MicroLaundry when wash temperature is less than 140°F (60°C).

For top loading washing machines:

Add 1 cup for regular loads. Add more for large / heavily soiled loads. Add to wash cycle.

Front loading machines:

Add 1/2 cup (125 mL).

Product Codes:

5944-4 4 x 3.78 litre containers

5944-18 18.9 litre
