

GLO GERM KIT

Glo Germ™ is the world leader in demonstrating cross-contamination issues in food service, health care and educational markets. In this age of concern over many types of infectious diseases, Glo Germ stands out as an effective way to show just how easy it is to overlook proper hand washing and cleaning. Not enough can be said about how important cleanliness and proper hand washing are to keep infections from being spread.

Items sold separately or in a kit

- #10004 14 LED UV Light
- 8 ounce bottle hand washing gel
- 2 ounce bottle of surface detection gel
- 4 ounce container of powder

The Glow Germ kit contains gels and powdered plastic simulated germs and the lamp illuminates them to test the effectiveness of your (and your workers) hygiene practices.

Illuminate the weaknesses in your techniques with Glo Germ™ and protect yourself, your customers, and your bottom line!
