

ECOGENT

Moisturizing Hand Wash with Vitamin E

SOAP FREE HAND WASH THAT MOISTURIZES WHILE IT CLEANS SCENT FREE

Designed for use in health care, food service and any location that requires frequent hand washing.

Contains natural ingredients Glycerin, Lactic Acid, Xanthan Gum, Citric Acid and Vitamin E.

Saves time as hands do not require wetting before application.

Rapidly rinses from hands

Eliminates environmental pollution from soaps and detergents used in hand washing

When water is not available can be applied to hands and removed with soft paper towel.

Frequent hand washing is a primary method of preventing the spread of pathogens. However frequent hand washing with soap, synthetic or natural surfactants based hand cleaners can promote dryness and skin irritation.

ECOGENT soap free moisturizing hand cleaning offers the potential for greater staff acceptance leading to improved hand hygiene compliance .

Available in 500mL and 2L with pump dispensers and 3.87L container.

Patent Pending
